Data Analytics Process

Real-Life scenario: Selecting a book to read

Steps

➢ Plan

➢ Prepare

➢ Process

➢ Analyze

➢ Share

➢ Act

Plan

❑ We first should decide the language.

❑ e.g. In which language I want to read a book. If I can read 3 languages i.e. Hindi, Marathi and English, then which language will I prefer.

❑ Language should decide during planning step.

❑ I decided English language.

Prepare

❑ How much I can spend on that book.

❑ Research online where we can get the books.

❑ Research about cost difference in online and offline.

❑ My budget is upto Rs. 500

Process

- ❑ Which type of book I will like to read.
- ❑ E.g. Spiritual, frictional, non-frictional, etc.
- ❑ Understand your interest and decide the type.
- ❑ I decided spiritual category.

Analyze

❑ Search which book is best book in your interested category.

❑ If I decide to read spiritual then I have to decide which book and also the author of book.

❑ I decide the book: Krishna- the man and his philosophy.

Share

❑ Share with your friends.

❑ I will share with my friend who actually read that book.

❑ I will ask for feedback from him.

Act

❑Finally I bougth the book.
